

LIBERTY

PROPERTY TRUST

June 4, 2010

To Whom It May Concern

Michelle Forte Young has been a colleague of mine since 1998. Over the past few years, FORTE YOUNG INC. has successfully completed several construction projects for Liberty Property Trust.

Most recently, FORTE YOUNG INC. completed an interior renovation to Maitland Summit I, a six-story Class 'A' office building in Orlando, FL. A highlight to this project was the installation of low flow and touch free plumbing fixtures to the core restrooms which will reduce potable water useage, saving thousands of gallons (and dollars) annually. As to be expected, the project was delivered on time and within budget. More importantly, FORTE YOUNG INC. completed the project with minimal-to-no impact to the operations of our longtime tenant, Electronic Arts, Inc.

Michelle listens to our needs, helps us meet our goals, and shares in our philosophy of sustainable construction. We look forward to building more projects with FORTE YOUNG INC. and wish Michelle much success as she continues to grow her business.

Sincerely,

Jay Ohanesian
